

# SKIN CARE BENEFITS OF

GO2 is a mildly saline water containing high levels of Oxygen. It contains only natural ingredients – no potentially damaging chemicals or compounds. GO2 is pH balanced, does NOT contribute free radicals to the skin & is extremely safe to use.

## **How Should I Use GO2 on my Skin?**

Use GO2 consistently to obtain best effectiveness. Spray it directly onto clean skin from about 10cm, then allow it to air dry.

Spray on the face 2-4 times daily for younger looking, younger feeling skin, and to help with any acne or blemish problems.

Spray anywhere on the body 2-4 times daily or as desired to assist with bacterial problems or sooth irritated areas. Continue to apply regularly until no further irritation.

## **How can the Oxygen in GO2 help my Skin?**

Oxygen is vital to the health of skin cells. As we age, the skin's natural oxygen levels decrease making it vulnerable to bacteria, dryness and other problems. Oxygen promotes collagen production, helping the skin to maintain elasticity, suppleness and a youthful appearance.

Oxygen is a natural antibacterial minimizing breakouts, acne and blemishes. It helps protect skin from harsh environmental damage. GO2 may be freely sprayed over broken skin and open cuts.

GO2 is very soothing for irritated areas, such as freshly shaven or waxed skin, or sunburn.

## **How Soon Should I expect to see Results?**

GO2 rewards those who are consistent and persistent! Get into the habit of using GO2 at least twice daily on those areas of skin that you'd like to benefit. Inconsistency or forgetfulness will delay the desired outcome. Many users find noticeable improvements within 3-4 days. Others may require 2-3 weeks.

Don't be alarmed if you experience a breakout soon after starting to use GO2. This is actually evidence that it has started working to cleanse your skin! Bringing any blemishes to the surface quickly is part of the process to clearer skin.
